# THE CRUISER

## AN INCOMPARABLE COMFORT

- 1 INTEGRATED TOP AND SIDE HANDLES**  
Soft feel padding for holding pleasure,  
Retractable to prevent accidental tearing off.  
Balanced position to prevent bag swing

- 2 LID DESIGNED FOR CONVENIENCE**  
Plumber-type opening for easy access and trays pull-up  
Lid is fixed by press stud when opened  
Padded for ultimate trays protection

- 3 TELESCOPIC CART LODGING**  
Closing pocket system  
Remains clean and bacteria free  
Prevents damage on soft surfaces

- 4 EXCLUSIVELY DESIGNED WHEEL BLOCKS**  
In line design, to prevent duck-walking  
Silent with Long use rubber and roller bearings  
Fully serviceable by user

- 5 SAFETY SIDE END POCKET**  
Integrated iPad compartment with external access  
Lockable area with optional GPS tracking system  
Stable top for adding extra sample bag

- 6 PERSONALIZATION**  
Stitched leather like window card holder  
Optional embroidery or interchangeable logo patch  
Optional colored piping

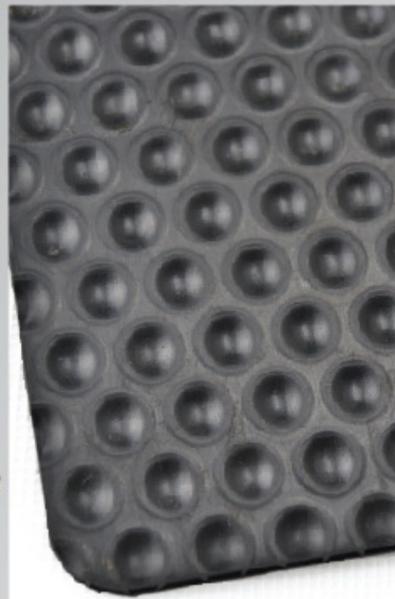

# THE CRUISER

## AN UNCOMPROMISING STRUCTURE

Stock of spare parts is guaranteed for **10 years**

**STABLE SUPPORT**  
Bags is fitted on 2 rivetted strong rails for easy handling in Cargo boots

**RIGID SIDE PANELS**  
Maximal durability (ABS is the strongest plastic, used for helmets)  
Hollow structure for lightness  
Laser cut to size

**HEAVY DUTY BALLISTIC NYLON MATERIALS**  
1680 D quality (same as for parachutes)  
Water repellent for use in extreme conditions  
Washable soft lining inside every bag

**LOCKABLE CART BARS**  
Fixed at bottom of bag : Anti tangling  
Firm grip  
Coated for rust protection

**YKK ZIPPERS AND HARDWARE**  
The most qualitative in the World  
Manufacturer's guarantee  
Coated against rust

**ANTI-TILT STRUCTURE**  
Bags are kept horizontal on each of their sides

**PIPING BAG STRUCTURE**  
Maximum durability of each bag side  
Over piping at corners  
Heavy duty reinforcement

**METALLIC STANDING BAR**  
Full bag stability and horizontality when resting  
Rigid grip for lifting bag into a trunk  
Protective non-rust coating

In 2004, EXPLORIS has invented the SYMBIOSIS trays and registered their magnetic hold concept.

With this feature, the tray lid firmly stays below the tray, providing you with an incomparable comfort of use.

The opening direction of our trays make them practical to operate, without any aggressive gesture.

We combine a precise laser cutting, an engineered process design, top quality structure materials and REACH compliant linings.

EXPLORIS trays are the best ratio on the market between weight and rigidity.

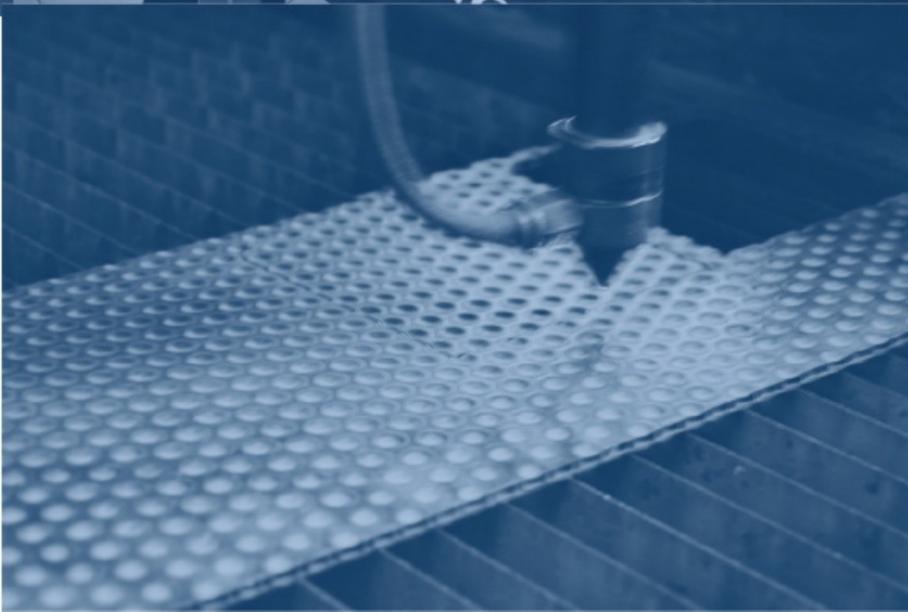

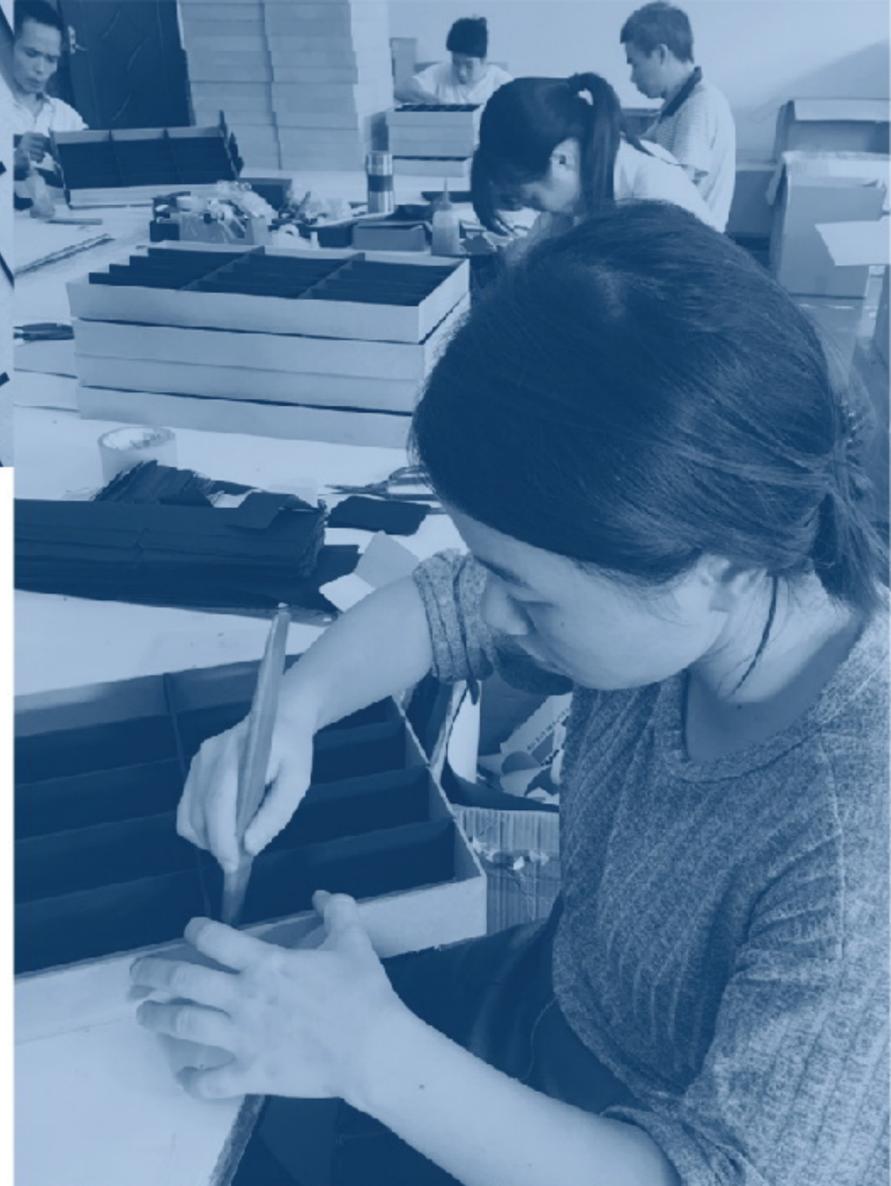

SYMBIOSIS trays are designed for series of 3, 4, 5 or 6 compartments, with adequate separation walls. They can be fitted with different types of pullers and labelling systems

Such trays give the possibility to shift from drawer to vertical fill-in configurations. Our SYMBIOSIS trays can be used from furniture to mobile solutions, without any need of transferring contents.

Another series of our trays, named PERFECTION, is Taylor-made to any specific need

# THE SYMBIOSIS TRAYS

 **EXPLORIS**<sup>®</sup>  
time to breathe

EXPLORIS factory economically produces all its most advanced products in Dongguan.  
We dedicate a complete floor to sample bags and trays manufacturing.

By being fully involved in the Optical industry for more than 20 years, EXPLORIS has been able to adapt its range to every changing sales habits.

Because every set, including bags and trays, is integrally produced in-house, a perfect fit can be achieved between bags and trays, according to various configurations.

EXPLORIS factory is GRS certified and ISO 9001-2015 compliant.  
Our Sales force tools are designed for your peace of mind.
